

DENS OF ANARCHISTS SEARCHED BY POLICE TO BREAK RED RING

New York, July 6.—Detained by anarchist leaders in the bomb explosion that caused the death of three men and women on Saturday, a squad of detectives detailed by Police Commissioner Wood today began search for the plant in which the infernal machine was exploded.

That these first important points were agreed upon with such little delay has caused a feeling here that other points settling the difference between Carranza and Villa will be decided with equal facility. The points agreed upon represent controversies on both sides, it was said. General Villa, according to the report, will withdraw his resignation as commander of the northern division. General Carranza will withdraw the acceptance of the resignation.

The first witness called at the inquest today was Celia Coleman, a negro maid in the Carman home. She began her story by telling who was at the dinner table on Tuesday night. She said that Mrs. Carman complained of having a headache and said she was going upstairs. The witness said she saw her leave the room and heard steps on the stairs. She thought was that of Mrs. Carman.

W. J. J. Hall, Jr., of Lynbrook, near here, who strongly resembles Dr. Carman and drives an auto of the same type, reported to the Freeport police that early today while driving his machine not far from where Dr. Carman was fired upon last night, a man standing beside the road fired one shot at him. Hall is a long time friend of Dr. Carman.

Oh, it ain't so bad. Th' Fourth only comes onst a year you know. An' a fellow can stand hein' bunged up a bit, but often in return for th' good time he can have shootin' the crackers and th' like. Here's my dops on th' weather for tomorrow:

Kentucky—Generally fair to night and Tuesday.

Washington, July 6.—By a
executive order issued today
President Wilson exempted from
civil service examinations 14 com-
mercial attaches authorized by
the new legislative appropriation
bill. They are to be attached to
embassies and legations in South
America and Europe for invest-
igation and exhibition of Amer-
ican trade abroad. Congress, after
a long fight, put them under
civil service against the wishes
of the administration.

PRESIDENT'S TRIP.

Wilson is planning a trip on the
Presidential yacht Mayflower later
in the summer, probably in
August. No definite arrange-
ments have been made because of
the uncertainty of the adjourn-
ment of congress.

Many Complaints Made To Police

A careful investigation seems to indicate that the complaints against George Jacobs' gas engine are prompted more by spite than for anything else. The Portsmouth Engine company has just submitted a report to Mayor Erick stating that the engine is equipped with a fine muffler and that the exhaust is hardly audible.

GUN TOTERS, BAD WOMEN, DRUNKS, FIGHTERS, MAKE A RECORD POLICE COURT

Two month holiday cheer kept back for harboring a simple-minded girl like Mary Vermonth, whom he employed as cook at his home on Front street. The girl got badly drunk Sunday on whiskey furnished by her uncle, Steve Miller, who managed to escape to Kentucky. Viola Russell, who is Madden's sister, was drunk, too up all of his wife's clothes and even destroyed all of the bedding in their East. The house was fined \$10 and promised a trip to the workhouse if he ever repeated his act.

After Leslie took him into custody, Peter Berkan, who was disgraced had to be beaten into submission in an East End saloon, was misused for "disorderly conduct" in 1910, and Betty Hamilton who and shortly after is said to have been found aimlessly staggering brandish of a knife at a Chillicothe saloon.

Rowland Tanner, a barfly at 614 and 810, Kendall Fields was fined \$5 for carrying concealed weapons. Tanner was found to have a loaded pistol in his dinner basket while on his way home from work Friday at 810, Chester Crabtree, and Bert Miller, while drunk, the party broke up in a box though he claimed that there had been no trouble at the camp. Trinity Class Had A Lively Session

Mr. Ghoshal had a spirited song in his line were receiving praise after which the fifteen more were than he it was his duty singers treated the class to that to make a close study of conditions to see if the other man was not more efficient before making a kick.

Prof. Finney started up by asking the question "Does this lesson teach that all men should receive the same wage regardless of efficiency or ability?" Very few, if any, hands went up that a dullness.

After this lively discussion which is not only engaging the minds of the class but the whole attention the teacher took the reins and made the application of the lesson.

While the big majority claimed that it did not, Most agreed that it was meant to hit selfishness, a selfishness of the heart, which the great truth came in to clear. I wish to note in different persons of their life for the time, and was embraced by them, that

children even needed this great machine to get each bag out and to pick out their portions of snails. All proceeded smoothly up to this time when the teacher was handed a new ticket which gave them all up. The food of a moment in the Ford plant who

Picking Up Money

Using these columns is pretty much like picking up money on the streets. Walking is small effort, you wear out a little the leather, the money you pick up is clear gain, if you can't find the owner.

So it is little effort to telephone your "want" to this paper, your carrier will collect the little cost—only 25 cents a word each insertion—and the little ad is altogether likely to get for you what you want.

PULMOTOR SAVED A BOY WHEN HIS THROAT CLOSED

Hasty employment of a Pulmotor as means of resuscitation saved the life of Howard, 5 year old son of Mr. and Mrs. Harry Ginn of Washington street Saturday afternoon.

The life giving instrument worked beautifully and the youthful victim, who was thought to be in the throes of death was brought back to life by its use. For several days the Ginn boy had been afflicted with measles. On Friday evening serious complications developed.

The child's throat began to close Saturday morning and it was with the greatest difficulty that he was able to breathe. Dr. Harry Schirrmann was called in to see the boy and he realized that it was a desperate case as the victim's windpipe had almost closed and the boy's pulsation

was way below normal. Dr. Schirrmann inserted a silver tube in the boy's throat and without losing any time he got in communication with First Chief McNeal and the Pulmotor was sent to the Ginn home. As soon as it was applied and an artificial respiration was worked up the victim began to show signs of life and his pulse began to grow normal.

The boy, a short time later, was considerably better and no further use of the Pulmotor was needed. Dr. Schirrmann, however, left the tube in the lad's throat as he is not yet past the danger point.

Dr. Schirrmann stated Sunday that the victim owed his life to the functions performed by the much talked of Pulmotor, which in cases of drowning and suffocation has worked wonders.

ATE MELON, POISONED

Samuel E. Greenberg, manager of the Steinkamp furniture store, suffered a sudden attack of poisoning shortly after eating water melon and became violently ill Friday night. Dr.

Locke responded to a hurry call and removed Mr. Greenberg from the store to the Hempstead hospital. He was discharged from the hospital Sunday and was able to be back at the store again Monday morning.

Fourth Here Was Sane And Safe

In an unprecedented conservatism many Portsmouth celebrated the Fourth for the year 1914. It was a sane and sane observance of the signing of that important document, the Declaration of Independence. There was the usual faithful explosion of cannon and firecracker, Young America's contribution to the day, but no pretensions displays of fireworks were attempted. Life and limb were not sacrificed and very few accidents occurred to mar the day. The city spent a very orderly Fourth in every particular while its departed citizenship, in spending the day at camps, in other cities and recreation resorts.

kept the principal streets and the parks very much deserted.

MORE than nine times out of ten you will find that the successful man began his success by first being a prudent man. He early learned the value of saving and began putting his surplus in bank. There is character and force about the man who has money in bank. He begins confidence in himself and confidence and credit of others in community. He becomes recognized as safe and dependable. Opportunities begin to come his way and having some means he is the better able to profit by them.

Hope Work On P. O. Will Be Finished

While there was no definite information to that effect at the postoffice, it appears that the government has at last been moved to action on the excessive delay and forfeiting the contract of Harman Bros., who have been on the addition and enlargement of the structure for two years.

So much is surprised, at least, because the small force of men that have been puttering around the building for several months past, did not report for work Monday morning, but instead packed their kits and left before noon. Besides that, the janitors began cleaning up all the floors as though it was not expected the usual mopping up would be on again for some time.

In the event of a forfeiture of the contract for the improvements, it is said the government may take anyone of these courses: Complete the work under its own immediate direction, let out what remains to be done, or permit the indemnity company that guaranteed the fulfillment of the contract to carry it out.

The main parts of the contract unfulfilled are the filling of the lobby, the installation of lavatory and new entrance doors.

Karl Franz Josef, New Crown Prince of Austria, Duchess and Son.

Archduke Karl Franz Josef has come to be the heir to the crown of Austria-Hungary as the result of two violent deaths—the murder of Archduke Franz Ferdinand and his morganatic wife, Duchess of Hohenberg, Sunday in Bosnia, and the mysterious killing, twenty-five years ago, of Archduke Rudolph, Emperor Franz Josef's only son.

The assassination of the heir to the Austrian throne is the last of a long chain of tragedies in the Hapsburg family.

In his new life of the Emperor of Austria, Francis Gribble records that the earlier years of Francis Joseph's reign were marked by cruelties.

"Countess Karolyi," Gribble relates, "whose son had been a victim of the repression, caused Francis Joseph in seething words which were sent to him by the post."

"May heaven and hell blast his happiness! May his family be exterminated! May he be smitten in the person of those he loves! May his life be wrecked and may his children be brought to ruin!"

Years later came this newspaper summary of tragedies to illustrate, as the superstitious might hold, the workings of the curse:

"On Jan. 30, 1889, Crown Prince Rudolph took his own life in his hunting box at Mayerling."

"In May, 1897, Sophie, Duchess of Saxe-Coburg, at one time the affianced bride of Ludwig II. of Bavaria, was burned to death in which went to ruin all the posterity."

An Honor Deservedly Won!

This bank has recently attained a rather unusual distinction—won a high honor for itself, that of an HONOR BANK.

Under the banking custom when a bank earns as much surplus as it has capital it is then called by way of eminent distinction, AN HONOR BANK.

Great as is this distinction it means a little more in the case of THE SECURITY than in the ordinary. The reason it does is because THE SECURITY is a comparatively young bank, one of the youngest and the only bank in Portsmouth to bear this desired title, an HONOR BANK, devised because of special recognition, and most of all because it is the badge of strength from which flows confidence.

A bank to be RIGHT, must first be STRONG, then to be SUCCESSFUL it must have CONFIDENCE, not alone of its patrons, but of the public. That is why the title of "HONOR BANK" is coveted and why it is deserved—why it fits so well with our name, for it stands for SECURITY.

In effect it means guaranteeing with two dollars instead of one. To illustrate with our own case: When we opened our doors our capital stock paid in was \$100,000.00. In other words our stockholders said to the public: "We will put up \$100,000.00 as security that the business of this bank will be honorably and safely conducted." The public took that guarantee and now out of the earnings the stockholders have laid aside an equal \$100,000.00 as further guarantee that its business will still be honorably and safely conducted. You can see, then, they put up two dollars, instead of one, as security to every depositor who entrusts his money with us.

The government recognizes the fact that the first law in banking is SAFETY, the SECURITY of the depositor, and because we have met its highest standard in that respect, we are called an "HONOR BANK."

With this strong safeguard for your money why is not THE SECURITY the LOGICAL BANK in which to entrust your banking business?

A large sum is not required in opening an account with this bank. Begin with one dollar or more, which with consistent effort on your part, coupled with COMPOUND INTEREST THREE TIMES A YEAR allowed, will soon surprise you with the way your account will grow.

To accommodate those who cannot come during the regular business hours, of the day, we keep open on TUESDAY EVENINGS UNTIL 9 O'CLOCK.

We will be glad to see you.

The Movies

"The Gamblers" At Columbia

"The Gamblers," one of the most successful plays ever written will be presented at the Columbia tomorrow afternoon and evening. This great picture is in five reels and is a most complete and interesting reproduction of that great book "The Gamblers" written by Charles Klein, who also wrote "The Lion" and "The Mouse." Don't fail to see this great picture at the Columbia tomorrow. Remember it is here for one day only.

OHIO STATE LEAGUE IS CUT TO SIX CLUBS

IRONTON AND PARIS DROP FROM THE LIST, LOCALS GET PLAYERS

At a meeting of the managers of the Ohio State league held at Ironton Sunday afternoon, the league was reorganized, Ironton and Paris surrendering their franchises, the league to continue with six cities, namely, Portsmouth, Chillicothe, Lexington, Charleston, Huntington and Mayaville. The new season is to start Tuesday, when Mayaville opens at Portsmouth, Charleston at Chillicothe and Lexington at Huntington, the series to be three games each.

The present season closes tonight at 6 o'clock, which will give Chillicothe a head start for the first half. In the event that another club wins first place for the second half a series of seven games will be played between the two cities, the result of which will decide the pennant for the two halves.

The Ironton managers decided at the meeting that the outlook for professional ball in their town was hopeless and hopeless. They have lost heavily on the Natters, who hit the bumpers for fair when they visited Portsmouth. The Natters, who lost three games in a row, it is thought that these three defeats, coupled with the actions of Manager Smith, soured the Natters for the Ironton city. Had the team won two games here the fans likely have come to the rescue of the club and raised enough money to let it over for the balance of the season. As it was the fans were broken hearted over the showing of the Natters in the Peerless City and could not get up enough enthusiasm to touch their pocketbooks. Had the Ironton owners decided to continue, then the league would have made the Paris team a road club and the league would have gone through as per the original schedule.

The dropping of Ironton and Paris threw about 30 players on the hands of the league and they were parceled out by lot. Portsmouth faced quite well, thank you in the drawing, securing Catcher Nick Francisco from the Paris team and Pitcher Haggerty from the Ironton club. Chillicothe drew a splendid twirler in McWhorter of Ironton, while Charleston made a good draw when they snagged Shortstop Daubert of the Paris team, a player that ever one of the six clubs was after. Mayaville secured Pitcher Dasher of Ironton, Lexington grabbed Pitcher Hanna of Paris, while Huntington drew Outfielder Shaffer of Paris. Outfielder Bell of Ironton was gobbled by the Columbus team of the American association, while Pitcher Billinger and Third Baseman Rebold of the Ironton club were sent on to the Cleveland American league team. The balance of the players on both teams were declared free agents and are now privileged to play where they can secure employment. Ironton has two outfielders, Kendall and Nally, who will doubtless catch on with some club in the Central league.

Robert W. Head, president of the league, presided at the session of the managers in Ironton. After the meeting was over he, together with Secretary Joe Carr, President Gableman and Scout Billy Doyle, boarded the railcars for Portsmouth.

By the new arrangement, Ironton can now return to yarn ball, while the six clubs have all been strengthened and the fight will be even faster and more bitterly contested than during the first half. The railroad jumps will not be any longer, and the league will consist of six live cities, which will go through the season with less drama and hand playing. The action of the Mayaville club is not a "deciding" in stick to the ship manager, but all sorts of commendation from the club owners. Here is the smallest city in the circuit, but there are more sports to the square inch in little old Mayaville than you will find in any city of its size in the country. The managers are as good as getting out and are willing to take a shower of all sorts.

Portsmouth fans will meet the new conditions with open arms. This city is not only the home of the most intelligent fans on earth, but regarded as the backbone of the league.

There is just one thing to do, and that is for the Childs bunch to get out for the second pennant, and regardless of any prospect the team is regarded as the strongest in the circuit. In the event the locals win the second half, they will be back next week when they will play with the Natters, who won the first half by their cyclones.

All should be the second part, when at allbrook park tomorrow and watch the Natters break up with Mayaville. Once called at three o'clock, President Head has promised a new schedule within a few days. The ex-champs are to play at Chillicothe Friday, Saturday and Sunday.

Automobile Is Hit By A Street Car; One Occupant Hurt

Failure to see the approach of a west bound street car about five o'clock Friday evening caused Mrs. J. H. Dunn, of 1422 McClintock avenue to steer her Paige touring car in the path of a trail-er of the regular car, at the corner of Eleventh and Clay streets, causing the automobile to be sideswiped. Of the party of five in the car, only one was injured, Mrs. Dunn being slightly bruised. The two front tires on the car burst and one fender was badly battered. Besides Mrs. Dunn,

Boy Scout Saves Life Of Companion

The worthiness of the Boy Scout movement was proved Sunday afternoon when Paul Weaver, of Troop No. 1, Pullerton, Ky., saved the life of little William Williams, son of Mr. and Mrs. Charles Williams of Pullerton, from drowning in the Ohio river. Weaver was swimming near the shore in the Ohio river near Coney Island when he saw two hands sticking out of the water, and realizing the danger of a comrade and playmate, struck out. With a few overhand strokes he reached the Williams boy, who was going down for the last time. Owen

Bi-Chemic Doctors To The Women

Since the beginning of time, woman has been subject to ill and disorders peculiar to her sex. Because of physiological changes which approach the pathological, that is regularly taking place in certain organs, these organs are liable to disease and because the average woman accepts these diseased conditions as a matter of course, tolerates and suffers them in silence, considering her pain and distress a part of the price she must pay for being a woman, there exists a vast multitude of invalid and semi-invalid women-kind.

Women are known to tolerate pain more patiently than do men. Their mother love and love for their home sustains them through many a dark and painful hour. Disregarding the signs of developing disease until outraged nature no longer able to withstand the strain, fails. The patient calls her physician. An examination reveals the trouble that she all too late recognized, and treated months or years before, but now too late. The patient is rushed to the hospital, and her family for the next few days await the bulletin from her bedside.

For the past several years many members of the medical profession have thought that surgery offered the only answer in the many ills of women. Their idea has been to remove, cut away, whittle down, and as a result of unnecessary operations, many women have had more suffering added to their already heavy burden.

The Bi-Chemic Doctors, those medical specialists, located in the Masonic Temple Building, have been treating women for years. The necessity of early attention to all ailments peculiar to their sex is important. They state that much discomfort and pain suffered in silence by many women are danger signals, which if heeded and proper treatment undertaken, many operations could be avoided. The regularly recurring headache and run nose, loss of appetite, indigestion, and other little symptoms are indications of derangement of one or more organs and should be investigated.

The Bi-Chemic Doctors treat the common ills by modern method, and have annually hundreds of women

freed from the dangers of an operation. The following letter from one such will tell graphically what these specialists accomplished:

To The Doctor:
I have been very sick for the past several months from weakness and female trouble. In fact, I virtually got out of bed to go to the office, had such bearing down pains, was dizzy most of the time and was unable to work. I had been treated by various members of the staff at the hospital where I am employed.

One doctor told me that I would have to go under an operation. I heard of the good work being done by the Bi-Chemic Doctors. One friend advised me to consult them, but I had no faith in their treatment and besides, many of the nurses looked at the idea of me going to such "hacks" but at last I decided to go; had a talk with the specialist in charge; he inspired me with confidence to the extent that I went under their care. Now, after but one week's treatment I want to say that I am feeling better than I have for weeks. The terrible bearing down pains have left, and I have no more dizzy spells, the weakness has disappeared, and I am eating much better and intend to resume my duties at the hospital next week.

I acknowledge my mistake in thinking that the Bi-Chemic Doctors could not help me, and I want to thank them for all they have done for me. I also want all others who most expect medical attention, and I know these are women that suffer as I suffered, to consult them without further delay.

Signed: HELEN GRANDALL, Toledo, Ohio.

The Bi-Chemic Doctors have their office located on the third floor of the Masonic Temple Building, Portsmouth, Ohio, where all sufferings are welcome. Among other ailments, they treat chronic diseases of the blood, heart, kidneys, bladder, nerves, stomach, rheumatism, neuralgia, neural growth, lack of nerve force, special diseases of women and diseases of men.

Office hours daily from 9 to 12, from 1:30 to 5:00, Monday, Wednesday and Saturday evenings from 7:30 to 9:00, Sunday from 10 to 12.

BROPHY SETS A COURSE RECORD

Cincinnati, O., July 6.—Johnny Brophy, professional of the Ft. Mitchell Country Club, made another new record for that course Monday, when he went around in 69. His former record was 71, made a week ago, when he broke the record of 73 held for two years by Peter Hendrie, former Ft. Mitchell pro.

Young Brophy's latest record is remarkable, as it is five strokes below par and 18 strokes below Johnny. Ft. Mitchell players were astonished at the form shown by Brophy, who, when he first joined the Ft. Mitchell Club, promised to make a record that would stand for many years.

The Ft. Mitchell professional, however, is not satisfied. He says he will lower the course record one more stroke. He says he could have made his last record a 68, but for carelessly missing a two-foot putt.

WANTS TO THANK GIRL WHO SAVED HIS LIFE

Editor Times: Through your daily paper I wish to thank the young lady who is employed by the United States government as a dispatcher around your city, for saving my life as she was coming down the Ohio river a few days ago in a motor boat. Being a silent hero she left without telling me her name but I found out, she was from Portsmouth. So hoping you print this in your daily paper for I feel greatly indebted to her for saving my life, I thank you in advance. Yours truly,

JOHN R. THOMAS,

Brett Company Is Taking Inventory

The Brett Shoe company, which has just closed a highly successful season, has shut down for this week to give its employees a fourth of July vacation and to permit of the taking of a semi-annual inventory.

The company will make a few alterations in its plant this week, preparatory to another busy season. It is now giving employment to a total of 125 persons and its plant has grown to be one of Portsmouth's most substantial shoe factories.

FIRST BAPTIST NOTES

The Men's Class at the First Baptist church took a big drop in attendance, owing to the celebration of Independence Day Saturday. As many took advantage of the two holidays and spent them out of town with friends or relatives. However, the lesson was of great interest to the thirty present. Small attendance makes no difference to the popular teacher, Dr. T. H. McAlister. The lesson, "The Laborer in the Vineyard," will be found in Matthew 20:1-16.

We find it a hard task to stick to it. In last Sunday's lesson we saw where the young rich man left Jesus in sorrow because he did not wish to part with his riches. Peter asked of Jesus, "Who then can be saved?" And Jesus said, "With men it is impossible, but with God all things are possible."

Who has the easier time to become a Christian, the rich man or the poor man? In explaining this question, the teacher said the poor man had the easier time, as it was much harder for a rich man to pass up evil as he would not be worried about the cost of it, while a poor man will often pass up evil, and not give it a second thought, as he knows he has not money to buy it with. For instance, should two men pass in front of a jewelry store, one a rich man and one a poor man, and they behold an expensive diamond, it should in reason the poor man will have to pass it up and not give it another thought, while the rich man may be tempted to investigate. It is hard for a rich man to pass up what he wishes.

All things are possible with God. This lesson is dispensational, as in every period of the world's ages. The eleventh hour began at Calvary. It will be the last period of the world when God will deal with the world.

In this lesson we find that one who is saved in the eleventh hour will receive an equal reward. We receive our reward by grace and not by agreement.

Too many people are serving God for what they get out of it, or feel they are serving Him according to agreement. We should serve God for the joy and privilege to serve. As Queen Victoria pinned medals of honor on the soldiers who had come back from war, she came to one who had both legs and one arm cut off. After she had pinned the medal on him he took it off and threw it away, then looked up into her face and said, "It is enough for me to look into your face without receiving a reward."

We ought to be the same, with Jesus, take our crowns off our head and cast them at His feet.

In conclusion, we have another

Knights Picnic

The Knights of Pythias of Stockdale held an old fashioned picnic in Gordon's Grove Saturday and it is estimated that 375 people were present, the crowd being one of the largest that ever assembled in that vicinity. It was one of the highest picnics ever held in Southern Ohio. The program as published in the Times several days ago, was carried out without a hitch. Many Portsmouth people attended the picnic and among the local speakers were Henry L. Chas. Mark Crawford, George Sheppard and Roy McElhenny.
